

DEVELOPING a Character

HAVE STUDENTS:

- A. Select one of the pairs of people from part C of Exercise #1

- B. Write out five descriptive sentences about each character.
 - Give them a name, age, occupation, interests, etc. The result is having two characters with character descriptions

- C. Write out five true descriptive sentences about themselves as if they were a character.

- D. Add two more sentences about themselves that are UNTRUE

They now have developed multiple character descriptions!

*These are just exercises and their plays do not need to include these characters
